

SITEJOLLY

This is a flexible shapeable hose made of austenitic stainless steel. One of its advantages is that it can be cut to any length you need and assembled using terminal fittings.

Application: Connection of end users' systems to the water hoses without any restrictions.

Each set of Sitejolly contains:

- Stainless steel shapeable hose, by the meter
- nickel-plated brass fittings
- gaskets
- split locking rings made of stainless steel
- flaring tool.

Table of codes - kit
