

SITEKIT

This is a kit of hoses to connect wall-mounted boilers. One Sitekit contains **Hydrositef** flexible hoses made of austenitic stainless steel and brass nuts, suitable to connect domestic and heating water for household uses, and a **Sitegas Protex** flexible hose made of austenitic stainless steel meeting UNI 11353 requirements and coated with a protective and insulating polyolefin sheath, suitable to connect end users' gas systems for household uses.

Application: wall-mounted boiler connections.

The kit contains:

- 1 (one) 3/4" M/F Sitegas Protex coupling to be used for gas connections
- 2 (two) 1/2" M/F Hydrositef couplings to be used for water connections only
- 2 (two) 3/4" M/F Hydrositef couplings to be used for water connections only
- 2 (two) 1/2" gaskets
- 3 (three) 3/4" gaskets

Item code	Min / max hydrositef length
	mm
HG000130	85/130
HG000200	100/200
HG000400	185/400
